The meeting was called to order at 3:30 PM by Darcy Bragg.

Minutes from December 11, 2017 were discussed. Lisa Cooper motioned for approval of the minutes. Dr. Davis seconded and the minutes were approved.

Dr. Davis opened the meeting with a discussion of NSSE 2017 Snapshot. Of note was student behaviors.

Learning Strategies: discussion of 2017 NSSE particularly 9 a., b. and c. The learning strategies comparison peers was lower from previous (NSSE 2104) submission. The group examined could this change be to on-line classes? A suggestion to have on-line faculty encourage strategies of item 9, a., b. and c. A question rose as to whether or not we have the data to review if/how many on-line students participated in NSSE.

Effective Teaching Practice. NSSE 5.a. – 5.e. Experiences with faculty. Again, the question was brought to the group are these experiences in on-line classes or face-to-face classes. In addition,

senior students versus freshman students. The majority of freshman would not be in on-line classes.

Quality of Interactions: NSSE 31.a. – 13. E. These was an overall drop from previous NSSE (2014) from 61 to 47 recorded in 2107. Of note was the change in peer groups from the 2014 NSSE and the 2017 NSSE.

After conversation regarding on-line and face-to-face students, the group inquired if the data could be extracted by those seniors who took all course work on-line? And, could there be differentiation in residential students and commuter students? A suggestion to drill down on those particular NSSE items discussed was agreed.

Dialogue about when/how to present this information to faculty and campus wide followed.

Next meeting date is March 22, 2018.

Discussion on meeting schedule for the spring of 2018.

Meeting was adjourned by Darcy Bragg at 4:17 p.m.
