

## Respondus LockDown Browser Student Quick Start Guide

Respondus LockDown Browser (RLDB) is a secure browser for taking assessments in GeorgiaVIEW. It prevents students from printing, copying, going to another URL, or accessing other applications during an assessment.

If a GeorgiaVIEW assessment requires that RLDB be used, you will not be able to take the assessment with a standard web browser.

Respondus LockDown Browser should only be used for taking GeorgiaVIEW assessments.

### Install RLDB

To download and install Respondus LockDown Browser, follow these steps:

- Log in to **GeorgiaVIEW** and go to your course
- Click the **Assessments** link on the course navbar and click **Quizzes**
- Select the quiz you are going to take: the name of the quiz should include: "Requires Respondus LockDown Browser" (for example: Quiz 1- Requires Respondus LockDown Browser)
- On the Quiz page, scroll down. Under Quiz Requirements, you will see the link: "**Download and install the latest version of LockDown Browser**":
