

Viewing Grades

Grades can be viewed as they are entered by your instructor using the steps below:

- Log into the secured site of RAIN.
- Click on Student Services and Financial Aid.
- Click on Student Records.
- Click on GSW Unofficial Academic Transcript.

Your current term courses and grades will be found in the Courses in Progress area of the transcript until we have run the end of term processes. After these processes are completed, you can find your courses, grades and GPA information for the current term at the bottom of your transcript in the Institution Credit area of your transcript.

If your grades are not on the transcript, keep checking because instructors are entering grades all the time during the final exam period.
