The **Governor's Internship Program** is looking for bright, hard-working and enthusiastic juniors, seniors, graduate students, and recent graduates to participate in an internship at the State Capitol in Atlanta, August 9th – December 20th, 2013. The Internship Program offers students valuable work experience in one of the numerous departments of the Governor’s Office, including but not limited to Communications, Policy, Government Affairs, Scheduling, Executive Appointments, and the Executive Office. Interns work in a fast-paced environment and enjoy many opportunities to learn more about politics, state government, and the legislative process. This program builds on the participants’ undergraduate and/or graduate education and other internship experiences, and gives them the capability to build a foundation for a career in state government or politics.

All interns are paid, and must work a minimum of 20 hours a week, though full-time availability is preferred. You may be able to earn class credit through your institution.

**To apply**, please email your cover letter, résumé, brief writing sample (no more than five pages), and a list of three references to interns@georgia.gov by Friday, July 5th, 2013, noting “Fall Internship Application” in the subject field. For more information, please visit http://gov.georgia.gov/intern-program. Due to the competitive nature of this program, early application is encouraged.
