Bachelor of Science in
LONG-TERM CARE MANAGEMENT
THE FIRST PROGRAM OF ITS KIND IN THE NATION!

The Bachelor of Science in Long-Term Care Management (LTCM) is an academic program offered online and in the classroom setting. It is a four year interdisciplinary degree addressing the need for a better prepared workforce for our nation’s aging and disabled populations. It is interdisciplinary as students will take courses from a variety of disciplines - sociology, psychology, business, nursing and the caregiving institute.

Employers today express the need for a new skill set in their workforce. They are looking for individuals who are compassionate, culturally sensitive, have managerial skills, and the ability to communicate well with others. The LTCM Degree prepares graduates to assist patients and families to connect with community resources, transition from hospital to home, and manage the care of residents in an institutional setting.

Scholarship Opportunity

The John and Betty Pope Scholarship Program
This scholarship program provides financial assistance to students desiring to study caregiving and family support through the Bachelor of Science Long-Term Care Management degree at Georgia Southwestern State University.

Admission Requirements
This scholarship program is intended for adult learners (who graduated from high school at least one year ago and have joined the workforce) with ambitions to return to school and complete a four year college degree.

- Acceptance to GSW is required.
- Apply online at rosalynnecarter.org/popefellowship/
- Applications due by July 15, 2018.
