h. Academic Honors: This proposal would change the number of credit hours required to be considered for Academic Honors. The current policy requires students to have at least 15 hours during a semester in order to be eligible for honors. The faculty senate discussed this proposal and was clearly divided on the issue. A motion was made to adopt the proposal and duly seconded. The faculty discussed and debated this proposal. Dr. Tate said that students, especially freshman, should not be eliminated from consideration for honors because they are often registered for less than 15 hours. Dr. Cooper added that is it sometimes difficult to get freshman students a 15 credit hour load. Dr. Waldrop stated that students with less than 15 hours could be noted for academic achievement instead of having a designation of academic honors. Dr. Kuipers looked up the requirements of two other USG schools and found that 12 hours are needed for consideration for honors. Ms. Krista Smith added that BOR does not have a standard policy. After all faculty members had a chance to discuss this matter, a vote was held. The senate president asked for a show of hands of faculty members that wanted to approve the proposal. By a significant majority, the faculty voted to adopt the proposal.
