

MEET THE STUDENT

Jack McFarlin

**"Work as heartily as unto the Lord,
everything will fall into place."**

About Me:

Major: Pre-Engineering

Expected Graduation Year: 2028

Hometown: Albany, GA

Favorite campus spot?

- My favorite spot on campus is either Library 210 or Canes Central 107.

What inspired you to choose your major?

- I am a Pre-Engineering major. I have always enjoyed systems, processes, and efficiency so engineering is a natural call.

Achievements

I am a Tutor, Zephyr, and Storm Spotter!

The Journey

What has been one of the most impactful experiences you've had so far in college?

- Working through upper-level math's have forced me to evolve and adapt to different teachers, study habits, and thinking.

How have you grown personally or academically since starting college?

- I have learned those you surround yourself define you – your habits, motivation, and will.

What are your current goals, either academically or professionally?

- My goal is to continue to develop my body, through discipline and exercise, my mind, through rigorous coursework, and my soul, through everyday scripture and practicing the Lord's will

What motivates you to keep pushing forward?

- This is what I've said I will do; there is no reason not to chase it with everything I am.

What do you enjoy doing outside of your academic work?

- Finding a new adventure to partake in, whether it be a hike, shopping, etc.

Advice for other Students:

I have two pieces of advice:

- You have come this far; there is no reason to stop now.
- Your friends are who define you. Find people who will push you to be better, grow more, and do the fun things. (Embarrassment is a state of mind, don't give opinions power over your life)
