Daylight Homepages and My Courses widget

My Home and Course Home pages got the two-column layout view in Daylight.

- 1. The My Home page has a new My Courses widget that is stretched across the top.
 - My Courses widget uses the concept of pinning courses to help users focus on the courses that are currently most important to them. Click on an image to access a course.

Note: you can access your courses from the Select a course... "waffle" icon ^{BB} at the top of the navigation bar.

- Users with under 100 total enrollments and 12 or less current courses see all their current courses as image tiles by default.
- Users with more than 100 total enrollments or more than 12 current course must explicitly pin courses that they want to appear as image tiles.
- A tile-based My Courses widget shows you current and future courses and allows you to feature engaging images.

Two-column home page layouts will collapse to a single-column **on mobile devices** with the left column as a primary column.
