

## Respondus LockDown Browser Student Quick Start Guide

Respondus LockDown Browser (RLDB) is a secure browser for taking assessments in GeorgiaVIEW. It prevents students from printing, copying, going to another URL, or accessing other applications during an assessment.

If a GeorgiaVIEW assessment requires that RLDB be used, you will not be able to take the assessment with a standard web browser.

Respondus LockDown Browser should only be used for taking GeorgiaVIEW assessments.

Note: Once you installed the LockDown browser, you do not need to install it again to take another quiz. All you need to do is click the Launch LockDown Browser button at the bottom of the page to take quizzes.

### Install RLDB

To download and install Respondus LockDown Browser, follow these steps:

- Log in to **GeorgiaVIEW** and go to your course
- Click the **Assessments** link on the course navbar and click **Quizzes**
- Select the quiz you are going to take: the name of the quiz should include: "Requires Respondus LockDown Browser" (for example Quiz 1- Requires Respondus LockDown Browser)
- On the Quiz page, scroll down. Under Quiz Requirements, you will see the link: "**Download and install the latest version of LockDown Browser**":
